### Presentation and Presenter Overview

This presentation will be on Mass Timber Structural Design and will cover case studies of regional mass timber projects, introduction to mass timber products, properties and relevant design guides and values, fire resistance design and calculations, connection styles, gravity and lateral design overview, and vibration design overview.

Jessica Scarlett is **Regional Director – NC/SC/TN** for **WoodWorks – Wood Products Council**, offering technical and design support to architects, engineers, contractors, and developers for wood construction, including mass timber, light frame, podium, prefabricated, and modular. She has a M.S. in Civil Engineering, with Structural concentration, from Clemson University, and has been working in the construction industry for approximately 10 years.

PDH's for this presentation will be provided electronically.

### Announcements

- **Second Presentation this Quarter** – Please note that in the email where this presentation was announced, a second (earlier) presentation was also announced for this quarter (attachment refers to it as Q3A). Please refer to the email for that information.
- **Presentation Topics** – Please send the officers a note (Rich Hamlin at [rhamlin@hargrove-epc.com](mailto:rhamlin@hargrove-epc.com) or Bill Hannah at [billh@adcengineering.com](mailto:billh@adcengineering.com)) to request a specific topic for a future presentation. If you have any topics or presentations that you want to see, please send us your suggestions.
- **Membership Renewals** – Renewal forms for the 2025-2026 will be sent out soon.
